These charities may also provide information and support on a healthy lifestyle and diet:

Your next eye test is due on the _____

You must have an eye test at an opticians after 6 months of taking elmiron®, for early detection of pigmentary maculopathy. If there are no findings, then regularly after 5 years of use (or earlier, in case of visual complaints).

It is important to keep taking elmiron® until you are reviewed by your healthcare professional which is typically after 6 months.

Due to the way elmiron® works, it may take some time before you notice improvements in symptoms.

Every pack of elmiron® contains a leaflet with useful information about your medicine.

Reporting of side effects. If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at **www.mhra.gov.uk/yellowcard**.

By reporting side effects you can help provide more information on the safety of this medicine.
